Descripción de la propiedad

Nestled on the Caribbean shore of Miramar, Bocas del Toro, this three-hectare oceanfront property offers natural beauty, privacy, and strong development potential. With a private sandy beach at the front and river access at the back, it provides a rare chance to live surrounded by sea and nature. The main house is a two-story wooden structure on a concrete foundation, with each floor functioning as an independent studio-style apartment with an open kitchen, living/sleeping area, private bathroom, and terrace overlooking the Caribbean. A small rustic outbuilding serves as a simple storage or utility space but could be upgraded for guests or a caretaker. The property features solar power with batteries, a reserve water tank, a small boathouse, manicured green areas, natural vegetation, and tropical fruit trees including coconuts, pineapples, and bananas. Access is by a two-minute boat ride from Miramar village, as the dock needs to be reinstalled. This property is ideal for a private retreat, eco-community, or boutique tourism project such as cabins, an eco-lodge, or glamping. Held under Derechos Posesorios with the possibility of obtaining titled ownership. Drone footage: <https://www.youtube.com/watch?v=6b28xZQdVNs>
