Descripción de la propiedad

This 146.652-hectare property is located in the Altos de Las Minas area, within the Caizán district of the Renacimiento region. It is an expansive piece of land that offers stunning views, particularly due to its varied topography, which includes flat areas, rolling hills, and some slopes. The property is 2.4 km from the center of the village and 2.4 km from the paved road. The property features several bodies of water, including the Caizán River, three water springs, a stream, and a well. These water sources add to the land's natural appeal, making it an ideal spot for agricultural activities, such as livestock farming, or eco-tourism projects. Thanks to its topography and water resources, the property is perfectly suited for cattle farming.
