Large Residential Lots Near Pedasí and the Beach

En Venta

\$88,000

Descripción de la propiedad

Piedra Viva is a private residential subdivision offering large homesites just five minutes from the beaches of the Azuero coast and five minutes from the town of Pedasí. Set across open pastureland and natural greenery, the project provides a quiet countryside environment with easy year-round access and close proximity to shops, dining, and daily services. The subdivision is designed with internal roads already in place and generous parcel sizes that allow flexibility for custom homes, gardens, guest casitas, and outdoor living spaces. Lot sizes range approximately from 2,566 m² to over 5,380 m², creating a low-density layout that prioritizes privacy and usable land. Five minutes to Pedasí town center Five minutes to nearby Pacific beaches Large parcels from roughly 2,566 m² to 5,385 m² (1/2 acre+) Internal road infrastructure established Open countryside views and natural surroundings Low-density residential layout Ideal for full-time living or vacation homes Piedra Viva offers the balance many buyers seek in the Pedasí area — space, tranquility, and easy access to both town life and the coast — making it a strong option for building now or holding long term in one of Azuero's most desirable markets.
