### Descripción de la propiedad

Masterfully crafted, this 3 story home is bejeweled with one of a kind mosaics which reflect glimmers of the Caribbean sun. Built in the traditional hardwoods of the region, the home is resistant to pests and salt and sun damage, providing a sturdy, lower maintenance, beachfront experience. Views of the Zapatillas islands and turquoise waters of the Archipelago can be seen from the outdoor living spaces of all 3 levels, beautifully orientated to the West for fiery sunsets. Sea breezes dance through the home all day thanks to the open air layout. The ground floor of the home has a large covered living space with a path that leads to the calm sea front, perfect for lazy swimming. There is a concrete storage area and a studio garden suite. The white sand beach, calm clear water, and a spectacular coral reef make this special home even more of a once in a lifetime opportunity. Everyone seems to dream of owning a beach, but most beaches in Bocas del Toro are not always accessible due to wave action, this property however offers a rare exception. Located on the leeward side of Isla Bastimentos, the waterfront is protected from the open ocean and swimable all year round. The best of both worlds meet right here, miles of sandy beach to wander and dock space to keep your boat.

### Características
