Two Villas with 6 Bedrooms and Mountain Views

En Venta

\$995,000

Descripción de la propiedad

This complete estate brings together two independent villas within Valle Escondido, one of Boquete's most established gated communities. With six bedrooms and six-and-a-half bathrooms in total, the property offers the space and flexibility needed for a family compound, multigenerational living, guest accommodations, or a residential investment in Bajo Boquete. The sale includes both Villa South and Villa North. Therefore, the new owner acquires the entire estate rather than a partial interest or individual villa. Each residence provides its own bedrooms, bathrooms, kitchen, living areas, and outdoor spaces, allowing both homes to function independently while remaining connected within the same property. Two Independent Villas Within One Estate Villa South includes three bedrooms and three bathrooms. It also features vaulted ceilings, a covered terrace, mountain views, furnished interiors, and an installed water filtration system. Villa North includes two traditional bedrooms, an upper-level loft that can serve as a third bedroom, and three-and-a-half bathrooms. As a result, the complete estate offers six bedrooms and six-and-a-half bathrooms. This layout gives future owners several options. For example, an extended family can occupy both villas while maintaining separate living spaces. Alternatively, owners can live in one residence and use the second for visiting family, guests, or potential rental income, subject to Valle Escondido's current regulations. Villa South Villa South opens into a bright living and dining area with vaulted ceilings, arched windows, and large sliding glass doors. These architectural elements bring natural light into the home while creating a direct visual connection with the surrounding mountain landscape. Villa North Villa North adds a second complete residence to the estate. The home includes two traditional bedrooms, an upper-level loft, and three-and-a-half bathrooms.
