The Art of Living: A French Architect's Dream Home

En Venta

\$3,800,000

Descripción de la propiedad

Casa Blanca in Boca Chica, Panama, is a stunning sanctuary perched atop one of the area's highest points amid thriving orchards. This extraordinary bespoke estate boasts over 4,500 square feet of refined, multi-level living space, where innovative European designed construction and materials enhance the luxurious feeling of this home. The sunlit main level welcomes you with an open-concept gourmet kitchen, dining, and living area, where expansive glass walls blend indoor sophistication with the breathtaking natural surroundings. The first floor hosts two opulent master suites with en-suite baths and generous walk-in closets, while the lower level impresses with a 36-foot infinity pool, additional bedrooms, a bar, and dedicated laundry facilities. Bathed in natural light and cooled by refreshing mountain breezes, Casa Blanca offers tranquil encounters with local wildlife and complete privacy among mature trees. Inspired by contemporary museums in Paris and New York, its pristine white walls and curated European furnishings create a warm, inviting backdrop—highlighted by a dining room featuring an elegant oval marble table beneath a clear roof that reveals a star-studded sky. Completing this remarkable property are a detached garage, office, greenhouse, advanced outdoor security, and bonus amenities including a sport-fishing boat and a well-maintained pick-up truck. Experience the perfect fusion of design, luxury, and natural beauty at Casa Blanca.
