5 Acre Hidden Gem in Boquete

En Venta

\$475,000

Descripción de la propiedad

If you're ready to grow roots in Panama—in every sense of the word—this is the place. Located in Boquete El Frances, in a peaceful greenbelt just outside town offering the perfect balance of privacy, productivity, and connection. This titled 5-acre estate features three separate homes, a fiberglass saltwater pool, and over 40 varieties of fruit trees, edible plants, and tropical flowers. If you've been searching for land that provides peace, purpose, and potential—this is it. Fully fenced and secured with an electric gate, this lush property feels like your own private botanical garden. A seasonal stream flows through, and the land is already producing abundantly—with mature fruit trees, medicinal plants, a greenhouse, chicken coop, and 20' container for storage and tools. This isn't a property that needs to be built—it's one that's already thriving. The main house sits peacefully in the heart of the land, surrounded by greenery and mountain breezes. A second home (casita) offers full independence with its own kitchen, laundry, AC, and covered porches—ideal for guests, extended family, or creative work. A third structure, originally designed as a hostel, provides flexible space for a future studio, office, or retreat zone. The centerpiece is the Neptune-brand fiberglass saltwater pool (Atenea model), measuring 4 x 8 meters and set into a raised teak deck. It includes a screened sunroom and outdoor freshwater shower—making it perfect for relaxing, entertaining, or enjoying a morning swim. The pool system is efficient and low-maintenance, operating on a timer with a chlorine generator.
