Descripción de la propiedad

Build your dream home just steps from the Pacific in one of Pedasí's most exclusive coastal enclaves. This ocean-view lot in Los Destiladeros offers a great opportunity to join a neighborhood of high-end residences without being subject to HOA fees or restrictive design guidelines. The lot is located between two luxury homes and features a gentle slope that captures ocean views. Electricity is ready for connection at the lot line, and each lot in this area is serviced by its own private septic system—giving you full autonomy when designing your property. The buyer will need to dig a private well for water access, a common and cost-effective solution in this part of the coast. Set in a private residential area with direct access to beautiful beaches and just a short drive from Pedasí town, the property blends tranquility, security, and convenience. Whether you're building a full-time residence, a seasonal retreat, or a rental home, this lot delivers the location and flexibility to bring your vision to life.
