Descripción de la propiedad

Located in the prestigious highlands of Jaramillo, just 10 minutes from Boquete, this exceptional executive building lot offers a rare opportunity in an exclusive private estate of only seven lots. Set at approximately 1,300 meters above sea level, the property enjoys Boquete's signature spring-like climate, with temperatures ranging from 14°C to 24°C year-round. The gently sloping, irregularly shaped terrain provides excellent elevation and architectural potential for a custom mountain home. Full infrastructure is in place, including electricity, water, internet, and cellular service. A private paved road winds through beautifully landscaped grounds, creating an elegant approach. The community is home to just two executive residences, ensuring privacy and long-term value. From the property, enjoy sweeping panoramic views of the Boquete Valley and majestic Volcán Barú. An ideal setting for a refined primary residence or luxury retreat in one of Boquete's most desirable enclaves.
