Flat Residential Lot in Jaramillo Abajo, Boquete

En Venta

\$90,000

Descripción de la propiedad

This flat, titled residential lot for sale in Jaramillo Abajo, Boquete offers an excellent opportunity to build a private home or retirement residence in one of Boquete's most desirable and peaceful areas. With a total size of 1,764 m², this property combines usability, privacy, and long-term value in a location that continues to show strong demand. The lot features flat topography, making it ideal and cost-effective for construction. It is located directly on a paved road, with electricity at the property line, municipal water, and high-speed cable internet available, allowing for a smooth and efficient building process. Surrounded by mature trees and lush vegetation, the property enjoys a very private, semi-rural setting while still being part of an established residential area. From the lot, you can enjoy beautiful mountain and forest views, along with a quiet, low-traffic environment that is highly valued by both local and international buyers. Despite its tranquil setting, the property is conveniently located just 7 minutes from downtown Boquete, providing quick access to restaurants, shops, medical services, and everyday amenities. The fertile soil also makes it ideal for gardens, landscaping, or fruit trees. This property is well suited for a private residence, retirement home, or long-term investment, and its combination of location, flat land, utilities, and views makes it increasingly difficult to find in today's Boquete market. Asking price: USD 90,000 (slightly negotiable). This is an exclusive Panama Green Real Estate listing.
