Wooded 5-Hectare Property with Natural Spring

En Venta

\$55,000

Descripción de la propiedad

This property is located just five minutes from the village of Caldera, in the Boquete district of Chiriquí Province. The finca offers 5 hectares plus 9,949 square meters of land with secondary forest and an abundant natural environment typical of this scenic area. The terrain is mostly wooded and gently slopes upward, creating a private and natural setting. It currently has pedestrian access and is accesible by 4x4. A notable feature is its natural water spring, a valuable resource for any type of project, whether eco-tourism, conservation, or sustainable living. The presence of mature trees and native vegetation contributes to the ecological value of the land and supports local biodiversity. Caldera is known for its warm climate and proximity to the famous Caldera Hot Springs, as well as its scenic views of the surrounding mountains. The village provides basic services, and Boquete town is about 25 minutes away by car, offering supermarkets, restaurants, and medical centers.
