Descripción de la propiedad

“imagine a view of a beautiful sunrise and moonrise over the mainland of panama, as you enjoy a quiet cup of coffee or a sunset drink from your oceanfront deck, seemingly all alone on Isla Grande, Colon. that’s the magic of this property. situated on the southeast side of the island, the trade winds offer a cool breeze to enjoy, and since it is the final and last available property on the south shore, it also offers the privacy we all desire. the property was once a coconut grove, very lush for growing fruit trees and flowers along its sloping lines that extend upward to the ridge of the mountain. fantastic views await you up and down the coastline as you explore the 5,961.79 m2 of this piece of paradise.
