Descripción de la propiedad

The Skyline Penthouse at Blue Bahía is a duplex penthouse in Punta Pacífica, one of Panama City's most established oceanfront neighborhoods. From its elevated position, it frames open views of the Pacific and the city skyline, balancing privacy with immediate access to the city. The residence is organized across two levels, separating entertaining areas from bedrooms with clarity and intention. Light and perspective shape the experience throughout. The main social level is defined by a dramatic double-height volume and floor-to-ceiling windows. The living room is the true connector, linking the dining area directly to the balcony in one continuous flow. Step outside and the balcony extends the social space into open air, keeping ocean and skyline views present in every moment. The kitchen is spacious and practical, designed for daily living and casual hosting. Two separate family rooms add versatility. One is oriented to everyday family use and includes an integrated desk area. The second is conceived as a more private adult lounge and features a built-in bar for intimate gatherings. Upstairs, the private level includes three secondary bedrooms, each with its own bathroom and closet, plus an additional space between rooms for a sitting area. The primary suite offers direct access to a private balcony with open views, along with a walk-in closet and an en-suite bathroom. Designed for those who value space, calm and a top address.
