Descripción de la propiedad

Dreaming of a beautiful lot for yourself, your family and perhaps a horse or two? One that is accessible by sedan car and where you can build your house plus perhaps a cabin or two or five for your guests? One that is crossed by a seasonal stream? Here it is! The entire property in the village of Las Cañas covers almost five and a half hectares, and we will divide it into three for you so each one measures a bit less than two hectares. We are open to selling the entire lot, if you need more space. Electricity and water are available at the edge of the property. Dolega is 5 minutes by car, 15 minutes and Boquete an easy half an hour by car. And if you prefer the bus – it stops just a few feet from the property. The prices is very attractive at \$ 8 per square metre, giving you almost two hectares for \$ 120,000 or \$ 360,000 for the entire property.
